

## **Shenzhen Sunlink New Energy Co., LTD.**

Shenzhen Sunlink New Energy Co., LTD. is a technology-oriented new energy technology enterprise. The company is committed to the design, development and production of energy storage and power generation products. The main products are home energy storage battery, emergency reserve battery, solar energy home energy storage products, high frequency reverse control all-in-one, power frequency solar off-grid inverter MPPT solar controller and other products. The application of this intelligent photovoltaic power generation technology will facilitate the application of off-grid photovoltaic system in a variety of scenarios, and provide more convenient and effective photovoltaic power generation system for residents in areas with no power, lack of power and unstable power grid.
